it is about to get to the first shop, there's a yellow energy bar with an exclamation mark at the left of the screen, you have to wait until it's full to continue. Once you got the full bar, the shop is unlocked and you have to get the items and continue. Level 1: Level 1 is very simple. It's about to be a supermarket and you have to put the stuff in the correct spot to build the mini-store. Turn around once you got the essential stuff and don't forget to click the "on" button. Level 2: You have to escape the horse. The horse needs a chain to move. Next level is about to get a worker. Level 3: You have to reach the truck. You have to jump over the barrels. On the last level you have to push the boxes to the right side of the screen and make the truck fall and the boxes to fall. Level 4: The first part of this level is about to get a cart, you have to push it. The next part is about to get the pig. Level 5: You have to do the mannequin in the

2017 views:744 Minecraft Earth is a real-time strategy (RTS) game developed by Gameloft and published by Google Play, which allows the player to construct their own 3D buildings and spaces in Minecraft and experience a full 3D environment to explore. In the midst of a new solar system creation, Black Blaze, an engineer, finds the survival of his daughter depends on him uncovering the mysteries of a Resource generation Engine and the threat it poses to planet, including her. He starts by uniting the MiningBeacons in his universe and learns of a way to collect the resources he needs to save her. Although the player is given complete freedom, their actions are stored on a "Behavior Chain" where every action they take sends them in a different direction. Though completely open ended, the player is placed on an "Espionage Mission" where they can either work with the dominant faction, led by Tzaros, or with the Blazeman coalition, who don't view Earth as a resource. This game was created based on Java Edition 1.7.10, with some elements from Minecraft 1.9, using Adobe Flash Professional. Play Ep 11 of 12, "Halloween - Revisited". The Jigsaw puzzle was playing on Halloween while the gang was running away from the portal monster. All 3D games of our channel were made by using only Phaser, and it's source code will be published if the game gets
